

Somewhere

Cold War Kids

I've known you my whole life
Still can't figure you out
What makes me wanna cry
Is what makes you wanna shout
I used to get so mad
Now I can't live without

You don't care about money
No, we didn't have a cent
A couple of nobodies
We ain't seen nothing yet
When you live on borrowed time
You can't help but smile

So I'm bleeding for you
I'm not giving up on you now
Even if I let you down
Oh my, my
We're gonna make it somewhere
Someday, somehow

I knew you were crazy
On that night you shaved your head
You never seemed to care at all
What anybody says
I knew if I let you go
I'd be back again

You don't get pushed around
No, you always defend
There's levels to this thing we found
I cannot comprehend
You were my partner in crime
I knew I'd be with you till the end

So I'm bleeding for you
I'm not giving up on you now
Even if I let you down
Oh my, my
We're gonna make it somewhere
Someday, somehow

I'm bleeding for you
I'm not giving up on you now
I won't let the sun go down
Oh my, my
We're gonna make it somewhere
Someday, somehow

So scared to find the edge
You showed me I could fly
Convinced me there has never been
A better time to be alive
You're never gonna know
What's on the other side
Unless you try

I'm not giving up on you now
Even if I let you down
Oh my, my
We're gonna make it somewhere
Someday, somehow

Yeah, I'm bleeding for you
I'm not giving up on you now
I won't let the sun go down
Oh my, my
We're gonna make it somewhere
Someday, somehow
