

# Stray

Cold War Kids

No matter how good you been to me  
I don't have the words to make you understand  
Without a roof, oh, those years were lean  
Under the moon we found a place to dance

I have tried to be something more  
Than a moth to a fickle flame  
But you know when the crowd goes home  
You're the only one that knows my name

Don't you stray  
Don't you stray  
Don't you stray  
Don't you stray

So many people are suffering  
From either loneliness or success  
The closer we get to tragedy  
The more I feel like I am truly blessed

I have tried to be something more  
Than a train married to the track  
But ya know when the sun comes up  
I am bound to be rolling back

Don't you stray  
Don't you stray  
Don't you stray  
Don't you stray  
Don't you stray

Busy, busy, I'm working all the time, love  
Do ya miss me like I miss you much?  
Busy, busy, what's on your mind, love?  
Nobody else gets me, I need your touch

Don't you ever stray  
Now don't you  
Don't you stray  
Don't you stray  
Don't you stray  
Don't you stray
