A-Alikes

Cold World

I'm going down again

And I could really use a friend

Sorry, but where were you when I had something to say

Deep in my mind, what do you find

Eye against eye in a race against time

Fighting myself, can't blame no one else

Reaching out, I need your help

Reaching out, I need your help

I'm going down again

And I could really use a friend

Sorry, but where were you when I had something to say
