

## Beautiful Life

Cold

I remember when the lights were out in Boston  
It's the night you told me everything was fine  
I would search the world to find the perfect melodies  
Then I'll write a song to change our lives

The beautiful life  
The beautiful life  
Just give me one night  
The beautiful life

Like the star that lights the way for me to find you  
It's the love we have that keeps our dreams alive  
If the world makes me a stage then I will play for you  
And I'll sing a song to change our lives

The beautiful life  
The beautiful life  
Just give me one night  
The beautiful life

And I'm never good enough  
No I'm never good enough  
We are never good enough  
No we're never good enough  
For the beautiful life

The beautiful life  
Just give me one night  
The beautiful life

And I'm never good enough  
No I'm never good enough  
We are never good enough  
No we're never good enough  
For the beautiful life

The beautiful life  
Just give us one night  
The beautiful life
