No One

Well I can't ever really believe No one was sent to get me And I feel like I'm being erased No one got left here

I'm all alone No one was sent to get me I'm all alone No one got left here

But I'm fine No one got left here Well I'm fine No one got left here

I can't even breathe when I see The pictures sent without you I feel like i've been erased No one got left here

I'm all alone No one was sent to get me I'm all alone No one got left here

But I'm fine No one got left here Well I'm fine No one got left here

But I'm fine No one got left here Well I'm fine No one got left

I'm so sick of this terrible instinct It's so hard now Just to find you I'm so sick of this terrible instinct It's so hard now Just to find you

So sick of the terrible instinct I can only find you So sick of the terrible instinct I can only find you

But I'm fine No one got left here Well I'm fine No one got left here

But I'm fine No one got left here Well I'm fine Nobody got left Tištěno z pisnicky-akordy.cz
