

I Color You

Colde

In a universe so black and white
I know you saw me across the room (Across the room)
A bright flash of blue (Yeah)
I could see it in your eyes that night
Oh, girl (Yeah)

Girl, that's when I knew (Ooh)
My colors look so good on you
Let me try yours on me too
But there's more than meets the eye
'Cause I see your colors different
With my kaleidoscopic vision

I'll color you (Woop)
Shine your light on my true colors too
Let's invent new shades of me and you
Color me, my babe, I'll color you
I'll color you (Yeah)

Let me see you walk this red carpet in your blue jeans (Hey)
My new ride painted racing green (Hey)
Choose a tone, any shade between
I'll color you, and you'll color me (Woop)
Until sunrise, until moonlight (Hey)
Shine bright in the spotlight (Hey)
I'm all yours, and you're all mine
So I will color
Girl, I'll color you

Red, orange, green, yellow, pink, white, gold
All these colors, I'ma put on you, yeah
Black, white, every shade of gray
Gonna give it to you

New waves, you've never seen before
New day, we're mixing and matching more
We tried out every tone, yeah
What you wanna see? I'll show you love
You're my complementary color, baby (Yeah)
I'm bringing the best outta you

So let me color you (Woop)
Shine your light on my true colors too
Let's invent new shades of me and you
Color me, my babe, I'll color you
I'll color you (Yeah)

Let me see you walk this red carpet in your blue jeans (Hey)
My new ride painted racing green (Hey)

What I see vividly
Our new perspective
Come see our colors in motion, baby

You belong to me
And I belong to you
