

Toxic Love

Colde

I know it's hard to be your man
But I wouldn't have you any other way, baby
Yeah, I'll get you right
'Cause loving isn't easy, girl
But I know your love is worth it to me, baby

You don't need to fake it
You need me to take you
Girl, I won't make you wait
Baby let's just face it
Our time apart is wasted
So take my hand
I'm here to show you what you need

'Cause you don't need that toxic love, toxic love
You don't need that toxic love
You don't need that toxic love, toxic love
'Cause you don't got no toxic love (Oh, oh, oh)

Run it back, girl rewind (Oh)
It's not easy come, easy go love
I'd do you right every time
My love gon free up your mind, girl
Just you and me in sync
Baby no matter the weather
I wouldn't change a thing
We living our moment together

So baby just follow my lead now
Don't let nobody between us
Put another kiss on me like you mean it
Girl I know you need it
Come around and show me
How you'll make me feel loved
Like I do for you
Make me feel loved like I do

'Cause you don't need that toxic love (Hey)
Toxic love (Toxic love)
You don't need that toxic love (Oh, baby)
You don't need no toxic love, toxic love
'Cause you don't got no toxic love (Toxic love)

If you need just take your time
Take all of mine (Put your trust in me)
'Cause you don't need that toxic love
Girl just let me know
Don't guess no more (Put your trust in me)
'Cause we don't need that toxic love
