

## Absent Lover

Coldfinger

Could you be there for me  
be better for me  
could you be there for me  
Could you be there for me  
be better for me  
could you be there for me  
I'd rather be some place else  
with someone else  
i'd rather be some place else...  
i'd rather be some place else  
with someone close to me  
Could you be there for me  
be better for me  
could you be there for me  
Could you be there for me  
be better for me  
could you be there for me  
'Cause i'd rather be some place else  
with someone close  
i'd rather be some place else  
with someone close to me  
i'd rather be some place else...  
Could you be there for me  
be better for me  
could you be there for me  
Could you be there for me  
be better for me  
could you be there for me  
I'd rather be some place else  
with someone else  
i'd rather be some place else...  
i'd rather be some place else  
as there's someone close to me  
i'd rather be some place else...  
Could i be someone else  
in some place else  
could i be someone else...  
Could i be someone else  
in some place else  
far from here  
Could i be someone else  
in some place else  
could i be someone else...  
could i be someone else  
and would you be there for me  
'Cause i'd rather be someone else...  
i'd rather be some place else  
and have you close to me  
i'd rather be some place else...  
i'd rather be some place else  
and have you close to me  
So, could you be there for me  
be better for me  
could you be there for me  
be better for me  
could you be there for me  
be better for me

could you be there for me  
be better for me  
could you be there for me..
