

Feeling Resides

Coldfinger

So you know just how I feel about you
You stand, my love, my one and only
Ever since the day we kissed
A bliss came on me, never to leave
I feel you on me

Simplifyin' - you got me hooked up on you
Not denyin' - you got me hooked up 'cause

The feelin' resides
The feelin' resides
Even though we come a long way
The feelin' resides
The feelin' resides
After all the time we loved

So you know just how it feels
My heart heals when you're comin' on
I just can't hold my...
No one else could ever see what you see in me
It's hard to believe our time is comin'

Simplifyin' - you got me hooked up on you
Clarifyin' - you got me hooked up on you
Not denyin' - you got me hooked up on you
Bein' so close to you makes me go crazy 'cause

The feelin' resides
The feelin' resides
Even though we come a long way
The feelin' resides
The feelin' resides
After all the time we loved

Couldn't have been just the meaning, not just intention
My heart's takin' action. I'm gettin' you on reaction

It feels best when you know that you're wanted
Just like I know that I'm wanted
Put your soul to rest, your body's on request
Ain't nothin' like what you can give me, such unprecedented feeling
The truth's where it lies - the feelin' resides
