

Jupiter

Coldplay

Jupiter named for a planet wasn't free to be
To be exactly who she ought to be
She saw in colours others couldn't see
Jupiter named for a planet would pretend to be
Somebody way less extraordinary
"Sometimes I wonder what is wrong with me?"
"Am I bad? Am I wrong? Am I weird in the head?
The only one awake, and everyone's in bed"
Still she followed the river where the river led
Right up to heaven where the billboard read:

"I love who I love
Oh yeah, I love who I love
I love who I love'
The message from above is 'Never give up!'
Love who you love"

Jupiter longed to be herself or die
"I want to burst into a butterfly
Am I bad? Am I wrong? Am I not okay?
Speaking only words that a girl can't say"
Still she followed the rain to where the rainbow lay
All of the angels singing, "Come and say:

'I love who I love
Oh yeah, I love who I love
I love who I love'
The message from above is 'Never give up!'
Love who you love"

And it's a battle for your song
You had to hide away for so long
When they say, 'Your self is wrong.'
The orchestra of rainbows play

I love who I love
Oh yeah, I love who I love
I love who I love
I struggle with this stuff
Now all I want to say
Is la la la la la ey
La la la la la ey
La la la la la ey
Oh, I'm okay
Oh, I'm okay
Hey, hey, hey!!!
