

# Let Somebody Go

Coldplay

We had a kind of love  
I thought that it would never end  
Oh my lover, oh my other, oh my friend  
We talked around in circles and  
We talked around and then  
I loved you to the moon and back again  
You gave everything this golden glow  
Now turn off all the stars, 'cause this I know  
That it hurts like so  
To let somebody go  
All the storms we weathered  
Everything that we went through  
Now without you, what on earth am I to do?  
When I called the mathematicians and  
I asked them to explain  
They said love is only equal to the pain  
And when everything was going wrong  
You could turn my sorrow into song  
Oh, it hurts like so  
To let somebody go  
To let somebody go  
Ohh (ohh)  
Ohh (let somebody, let somebody go)  
(Yeah)  
Oh, when you love somebody  
When you love somebody  
Got to let somebody know  
Oh, when you love somebody  
When you love somebody  
Got to let somebody know  
So when you love somebody  
When you love somebody  
Then it hurts like so  
To let somebody go  
It hurts like so  
To let somebody go  
But you're still with me now, I know  
(Let somebody, let somebody go)  
Oh (let somebody, let somebody go)  
But you're still with me now, I know
