

# Murder

Coldplay

Murder, coming to get us  
they're coming to get us  
and the way we hide.  
murder, see it all around us  
see it all around us  
and the way we hide.

Murder, coming to get us  
they're coming to get us  
and the way we hide, way we hide.

Oh oh oh oh oh oh oh  
tie me to a tree  
tie my hands above my head  
sing a song to me  
sing a song like what you said

Oh oh oh oh oh oh oh  
and they're gonna murder me  
and they're gonna take me down  
and even before I sleep, I crumble down.

(I'm sorry I don't know the words here)  
come and spit at us  
come and throw your weight around  
come and fight with us  
try and knock us to the ground, singing

Oh they're gonna murder me  
and they're gonna choke me down  
even before I sleep, I scream out.  
murder

Oh now what could it possibly gain?  
oh what could it possibly gain?  
oh now what could it possibly gain?  
oh yeah what could it possibly gain?

I cry murder, murder  
I cry murder

Murder, oh coming to get us  
oh coming to get us, and the way we hide  
murder, see it all around us  
see it all around us, and the way we hide  
murder, coming to get us  
it's coming to get us, and the way we hide  
murder, see it all around you  
see it all around it you, and the way we hide
