

CHASING SHADOWS

coldrain

They say "believe"
Stop asking questions and stay inside the lines
But what if we were meant to dream
Beyond the skies

Can't we see
Eye to eye, not eye for eye
It's do or die so open the door

Chasing shadows in the dark
Step by step a tiny spark
When our dreams align we'll see beyond the night
Chasing shadows in the dark

They called it law and burned it all
In fear of what we'd find
But no they don't know, will never know
That truth survives in those who seek for more

Can't we see
Eye to eye, not eye for eye
It's do or die so open the door

Chasing shadows in the dark
Step by step a tiny spark
When our dreams align we'll see beyond the night
Chasing shadows in the dark

The fire we built with lives
Keeps burning unbound by time
Their hollow and cruel minds
May bring the rain
But they'll never steal our flames

Chasing shadows in the dark
Step by step a tiny spark

Chasing shadows in the dark

Chasing shadows in the dark
Step by step a tiny spark

Chasing shadows in the dark
In the dark, in the dark!
