

# Cut Me

coldrain

Seen it all, heard it all, know it all  
Take your shot  
Be the judge, be a Juror  
Watch me now take a stand

Come break me, come break me  
Come break me down  
Come break me, come break me  
Come and break me down

Make me the enemy  
Just because I disagree  
Cut me then you'd know that I bleed  
Know that I bleed like you  
(Bad) It's too bad (Sad) so sad  
We won't ever meet  
Cut me you'd know that I bleed  
Know that I bleed like you  
Like you

Don't know where you don't belong  
Don't know when you cross the line  
Look away, walk away  
Try your best to clean the slate

Come take it, come take it  
Come take it back  
Come take it, come take it  
Take back what you said right now  
Maybe we can still be friends  
Hahahaha NOT

Make me the enemy  
Just because I disagree  
Cut me then you'd know that I bleed  
Know that I bleed like you  
(Bad) It's too bad (Sad) so sad  
We won't ever meet  
Cut me you'd know that I bleed  
Know that I bleed

Bleed like you  
Bleed like you

Can we agree to disagree  
Live inside a better world  
Agree to disagree  
Live inside a better world  
(Can we agree)  
Agree to disagree  
Live inside a better world  
(Can we agree)  
Agree to disagree  
Live inside a better world

Cut me then you'd know that I bleed  
Cut me then you'd know that I bleed

Cut me then you'd know that I bleed  
Cut me then you'd know that I bleed like you

Make me the enemy  
Just because I disagree  
Cut me then you'd know that I bleed  
Know that I bleed like you  
(Bad) It's too bad (Sad) so sad yeah  
Cut me you'd know that I bleed  
Know that I bleed like you  
Like you
