

# Feed the Fire

coldrain

Let's go

You think we're different  
You think we never feel the way you do  
We've got scars to prove it too  
Nothing but human  
Fueled by emotions that we thought we knew  
But really had no clue

Pressure!!  
It's not the end of the world  
Think where you started from  
To where you're standing now  
Failure!!  
It's not the end of the world  
The best always rise from the fall

This is the end, this is the end  
You're not alone in this, my friend  
This is the end, this is the end

Soak in your weakness  
See if those colors feel right for you  
You're past the black and blue  
Embrace the darkness  
The light is there don't give into fear  
You'll make it through

Pressure!!  
It's not the end of the world  
Think where you started from  
To where you're standing now  
Failure!!  
It's not the end of the world  
The best always rise from the fall

This is the end, this is the end  
You're not alone in this, my friend  
This is the end, this is the end  
This is the end, this is the end  
You're not alone in this, my friend  
This is the end, this is the end

Feed the fire, just feed the fire in you  
(Feed the fire, feed the fire)  
Feed the fire, just feed the fire in you  
(Feed the fire, feed the fire)  
Feed the fire, feed the fire  
Burn away the fear  
Let your heart take over  
Feed the fire, feed the fire  
Burn away the fear  
Let your heart take over now

This is the end, this is the end  
You're not alone in this, my friend  
This is the end, this is the end

This is the end  
This is the end, this is the end  
You're not alone in this, my friend  
This is the end, this is the end  
This is the end
