Help Me Help You

coldrain

Silence will kill you in the end
I don't think you get it
Life has no worth if you pretend
Don't you forget that

You gotta say what you wanna say
When you wanna say it
Don't give up now make them listen
Be what you wanna be
When you wanna be it
Don't back down
Don't let them beat you down

All you see is hell
But we're dammed if do
More if we don't so help me help you
No matter how breathless
No matter how hopeless
Don't go dying on your own
Just help me help you
Straight through hell together

Dancing in the flames
We share the pain
Dancing in the flames
We'll make it rain

We're gonna say what we wanna say
When we want to say it
Be what we wanna be
When we wanna be it
They'll never beat us down

All you see is hell
But we're dammed if do
More if we don't so help me help you
No matter how breathless
No matter how hopeless
Don't go dying on your own
Just help me help you

Don't you back down to what they say
Don't you act like you're better off dead
Don't you give up, don't you give in
Face the demons inside of your head
Don't you back down to what they say
Don't you act like you're better, dying
Don't you give up, don't you give in
Face the demons inside of your head

All you see is hell
But we're dammed if do
More if we don't so help me help you
No matter how breathless
No matter how hopeless
Don't go dying on your own
Just help me help you

```
Straight through hell
Straight through hell
```
