

INCOMPLETE

coldrain

In the dark we drift apart
Forgetting who we are
Will time forsake us?
Reaching for hope in a lifeless place
We'll be echoes of a dying race

If we don't care, care
About us anymore
Who will care, care
About us we're just incomplete
(In incomplete)
How do we compete?
(In incomplete)
Completely incomplete

We saw the light
But turned a blind eye
To prove our might
We reached for the sky
Aiming so high we forget to climb
Drowning in debt just to feel sublime
We're at the edge of time

If we don't care, care
About us anymore
Who will care, care
About us, we're just incomplete
(In incomplete)
How do we compete?
(In incomplete)
Completely incomplete

Out of love, out of touch
Out of our control
Out sight out of mind...

Out of love, out of touch
Out of our control
Out sight out of mind
Will we let them take our fucking souls

No, no more
Don't act like you don't
Know, no more
Don't act like you don't
Know, we've gone too far

If we don't care, care
About us anymore
Who will care, care
About us we're just incomplete yeah
We're just incomplete yeah
If we don't care, care
About us anymore
Who will care, care
About us we're just incomplete
(In incomplete)

We're just incomplete
(In incomplete)
This is not defeat
(This is not defeat)
Complete me incomplete
