

# PARADISE (Kill The Silence)

coldrain

Isolated keeping distance  
Holding on to shreds of hope  
Waiting patient for the moment  
We can finally sing again

So here we go stitches sewn  
Not afraid of broken bones  
No vertigo  
Diving back in the unknown

Hand in hand, step by step  
Together

We're going back to paradise  
We're going back to making dumb mistakes  
Enough of being terrified  
Thinking this could be the way of life  
Turn it up up up till your body won't stop  
Loud loud loud or die  
We're going back to paradise  
So kill the silence

All our dreams covered in dust  
When our hearts started to rust  
But we took a chance  
In circumstance to find the light

Now we're starting back from scratch in the dark  
Building flames from tiny sparks  
Until the slightest bit of doubt is burnt away

We're going back to paradise  
We're going back to making dumb mistakes  
Enough of being terrified  
Thinking this could be the way of life  
Turn it up up up till your body won't stop  
Loud loud loud or die  
We're going back to paradise  
So to hell with the silence  
To hell with the silence

We love (we love) and learn (and learn) in pain  
To dream (to dream), believe (believe) again  
So say goodbye to pretending

We're going back to paradise  
We're going back to making dumb mistakes  
Enough of being terrified  
Thinking this could be the way of life  
Turn it up up up till your body won't stop  
Loud loud loud or die  
We're going back to paradise  
So kill the silence (we love, and learn)  
So kill the silence (to dream, believe)

Kill the silence  
Kill the silence
