Rescue Me

coldrain

I've been down this road before
I think I've seen your face as well
You weren't a friend as I recall
More like a friendly enemy
And every time you come around
It means I've lost myself somehow
Why did I let it come to this?
When I know that I don't need you around
I don't need you around

I can't get away, get away
From the fear deep inside as it eats me alive
I'm awake, I'm awake
So I'll put you to sleep and start to fight these feelings
Can I rescue me? Before it's all too late
Can I rescue me? Save me from myself

I'm getting sick of this cycle
And I'm so sick of the smile on your face
You think you've got me figured out
But don't you ever forget
I don't need you around
I don't need you around

I can't get away, get away
From the fear deep inside as it eats me alive
I'm awake, I'm awake
So I'll put you to sleep and start to fight these feelings
Can I rescue me? Before it's all too late
Can I rescue me? Save me from myself

Rescue me (7x)

I can't get away, get away
From the fear deep inside as it eats me alive
I'm awake, I'm awake
So I'll put you to sleep and start to fight these feelings
Can I rescue me? Before it's all too late
Can I rescue me? Save me from myself
