

See You

coldrain

Living in a haze
Counting down the days
Acting like there's nothing taking over
Staring down the drain
Taking anything to help me sleep away the pain

I said I wanna go everywhere
Said I wanna see everything
But honestly I'd give anything

If only I could see you now, now
Finding every way to get wasted
Missing you in all of these places now, now
Everyday I go a bit crazy
You're the only one that'll save me now
Without you here I'm just fading

Now I'm in too deep
The city of no sleep
Picking up the pieces of this broken dream
Starting to forget
Why the hell I came this far, oh where did I begin?

Always dreamed about living big
Always dreamed about who I'd meet
But honestly I'd give anything

If only I could see you now, now
Finding every way to get wasted
Missing you in all of these places now, now
Everyday I go a bit crazy
You're the only one that'll save me now
Without you here I'm just fading

Every step I take
I feel your energy, oh-oh
Every breath I take
I need you close to me

I said I wanna go everywhere
Said I wanna see everything
But honestly I'm dying here without you
Always dreamed about living big
Always dreamed about who I'd meet
But honestly I'd give anything

If I could be with you right now, now
Finding every way to get wasted
Missing you in all of these places now, now
Everyday I go a bit crazy
You're the only one that'll save me now
Without you here I'm just fading
Without you here I'm just fading away
Without you here I'm just fading
