

# Murderous

Coldworker

Murderous

I never stop  
Jacked up a fix, a shot,  
a dose - of slaying hell  
Blurred eyesight  
Won't stop this kill now  
Shot down, got up  
and did it all over again

Buried

A burial above ground  
Scream levels soaring  
To me the sweetest sound  
Heads are rolling  
Skulls crushed in one pound  
Fucked up procedure of death  
I kill, I murder

Punished, broken down, battered  
We introduce present life to afterlife  
Never-ending death, it keeps going  
Body count rising, piss and puke flowing  
It is the ultimate way to live

Way to live...

So on it goes  
My way of ending life  
Instant murder by gun or by knife

Next fix in deep

No stopping, no exiting  
Ignoring fatigue  
Move fast, not silent  
Pure killing spree  
I am no longer a man  
Bodies flash by  
Seeing red, seeing dead  
You can't see me without your head  
At last I am a god

A burial above ground

Scream levels soaring  
To me the sweetest sound  
Heads are rolling  
Skulls crushed in one pound  
Fucked up procedure of death  
I kill, I murder

Murderers

We'll never stop  
There's no pressing escape

Murderers

We'll never stop  
Kill, crush, maim, slay

Just fucking die
