

# The Contaminated Void

Coldworker

Sinister silence  
Forced into nothing  
Terror commenced  
In the contaminated void  
Dead freezing cold  
Kept in a psychic box  
Like a story untold  
He was the perverted toy

Growing... The seeds of his death  
The silent state is the way to decay  
Rotting... With a mind dead and gone  
He is likely to die

Soulless statue  
Devoid of motion  
There's no virtue  
In the contaminated void  
Mentally carbonized  
A cancerous soul  
Numb and desensitized  
Dead and reborn: Paranoid

Growing... The seeds of his death  
The silent state is the way to decay  
Rotting... With a mind dead and gone  
He is likely to die

Unveiled secrets will haunt them  
Public anger rise  
Disturbing, sick visions now become clearer  
We all despise

Sinister silence  
Forced into nothing  
Terror commenced  
In the contaminated void  
Dead freezing cold  
Kept in a psychic box  
Like a story untold  
He was the perverted toy

Growing... The seeds of his death  
The silent state is the way to decay  
Rotting... With a mind dead and gone  
He is likely to die
