

Broke Down

Cole Swindell

Old school McGraw coming out of my doors
Had to pull over, couldn't take it no more
Got this thing running in park, hazards lighting up the dark
I was just out driving around wast scanning for a memory to slo
w me down
But damn if yours didn't baby
I'd'a paid that DJ not to play it

Cause I'm sitting here knowing what its gonna take to fix me
It ain't a bar, ain't the beer, it ain't the whiskey
I'd give anything to hear ya say ya miss me tonight
Yeah anybody else with any kind of sense
woulda done moved on said it is what it is
But I'm off on the shoulder in a mess, all wrecked inside
Baby I'm broke down and it ain't the truck this time

People slowing down wanna see whats wrong
I got my hand out the window just waving em on
Cause I don't wanna have to explain
Don't want know one to see me this way
Don't need no gas, don't need no ride
Everything on this Chevy is running just fine
I just need another minute or two
Till this songs over like me and you

I'm sitting here knowing what its gonna take to fix me
It ain't a bar, ain't the beer, it ain't the whiskey
I'd give anything to hear ya say you miss me tonight
Yeah anybody else with any kind of sense
woulda done moved on said it is what it is
But I'm off on the shoulder in a mess all wrecked inside
Yeah baby I'm broke down and it ain't the truck this time

Yeah anybody else with any kind of sense
woulda done moved on but I'm here like this,
off on the shoulder in a mess all wrecked inside
Yeah baby I'm broke down but it ain't the truck this time
No it ain't the truck this time

I got nowhere go, nowhere to be
I'm nobody baby if you don't love me
