

I'm Gonna Let Her

Cole Swindell

She gonna take the runnin' right out of these boots
She gonna tell her mama 'bout someone new
And drop little hints 'bout a front door key
Park her car where the truck used to be
Yeah, she gonna take the runnin' right out of these boots

And I'm gonna let her
To keep on makin' this life of mine a little better
Showin' me all about love right down to the letter
So if she wants to think I'm thinkin' 'bout forever
I'm gonna let her

She gonna leave her earrings by the sink
She gonna steal my kiss, my heart, my drink
She gonna sleep with my t-shirt on
Get me missin' her when she's gone
Yeah, she gonna leave her earrings by the sink

And I'm gonna let her
To keep on makin' this life of mine a little better
Showin' me all about love right down to the letter
So if she wants to think I'm thinkin' 'bout forever
I'm gonna let her
(Mm, yeah, oh yeah)

She'll wanna drive my truck, she'll wanna meet my friends
She'll wanna change a thousand things on a list that never ends

And I'm gonna let her
To keep on makin' my days and nights a little better
Might change her last name right down to the letter
So if she wants to think I'm thinkin' 'bout forever
Well, I'm gonna let her

Yeah, I'm gonna let her
