

Remember Boys

Cole Swindell

Remember boys, never let a lady open the door
And be there with a lighter if she wants a smoke
Remember boys, never let her go to sleep crying
When she tells you about her dreams you gotta fill em up with hope

Cause I don't wanna be a "one night" boy
And I don't want to be an "ain't right" boy
I don't wanna be a "had a ball, waited out no call kind of love song" boy
I don't wanna be a regret or the one that she forgets
I don't wanna be a June till September
I wanna be one those remember boys

Remember boys, always open her beer first
And tell her that you love her, even when she makes you mad
And remember boys, no matter you make it work
you want her need and her and fight to keep her
let her know you know what you have

I don't wanna be a "one night" boy
And I don't want to be an "ain't right" boy
I don't wanna be a "had a ball, waited out no call kind of love song" boy
I don't wanna be a regret or the one that she forgets
I don't wanna be a June till September
I wanna be one those remember boys

No i don't wanna be a "late night" boy
I don't wanna be a heart break boy
I don't wanna be a "can't trust him with your love", kind of loser boy
I don't wanna be be a regret
Or the one she forgets
I don't wanna be a June till September
I wanna be one those remember boys

That's right...

I wanna be one of those remember boys
