

# Somebody's Been Drinkin'

Cole Swindell

First one came at 10:35

A 'Hey, what you doing? '

11:15 'Are you alright, did you finally get moved in? '

12:18 'I miss you'

12:36 'Wish I could kiss you one more time, lay on your shoulder'

1:09 'Can I come over? '

Somebody's been drinking and got to thinking 'bout us  
It's just the cherry bombs talking when you're hitting me up  
I got a fire in the backyard, half of bottle of goose  
And a spot on my shoulder so baby come on over  
Somebody else has been drinking too

1:14 you say you closed your tab but you need my new address  
You shoot me a picture from the back of the cab  
Damn, I've never seen that dress  
1:26 screenshot, GPS, coming in hot, two miles away  
'I miss you so much', 1:28- 'Why'd we ever break up? '

Somebody's been drinking and got to thinking 'bout us  
It's just the cherry bomb's talking when you're hitting me up  
I got a fire in the backyard, half of bottle of goose  
And a spot on my shoulder so baby come on over  
Somebody else has been drinking too, yeah

If we cross that line tonight, girl it ain't nobody's fault  
And in the morning light we can blame it on the alcohol

Somebody's been drinking and got to thinking 'bout us  
It's just the cherry bomb's talking when you're hitting me up  
I got a fire in the backyard, half of bottle of goose  
And a spot on my shoulder so baby come on over  
Somebody else has been drinking too

Somebody's been drinking, yeah
