

Sounded Good Last Night

Cole Swindell

When my phone started buzzing with my buddy
Saying let's paint the town, it sounded good
When that sexy bartender, nine or tenner
Said it's two for ones now, it sounded good

That band cranked up with some Dixieland Delight
That singer might've missed an Alabama note, or five

But it sounded good last night, we had a damn good time
Jack Daniel's got a jackhammer pounding on my mind
Is that my ex's 4Runner backing out the drive?
What I told her must've sounded good last night
There's a video karaoke me going viral
My fun money fund's in a downhill spiral
Right now it sounds bad, ya'll, I ain't gonna lie
But it sure sounded good, sounded good last night

Angel here on earth, did it hurt
Was my go-to line, I thought it sounded good
Round my twelfth twelve ounce, told the bouncer
"You wanna take it outside?", he thought it sounded good

That's when they kicked us out, we hit the Texaco
Bought a pack of Black & Milds and some beer from Mexico

'Cause it sounded good last night, we had a damn good time
Jack Daniel's got a jackhammer pounding on my mind
Is that my ex's 4Runner backing out the drive?
What I told her must've sounded good last night
There's a video karaoke me going viral
My fun money fund's in a downhill spiral
Right now it sounds bad, ya'll, I ain't gonna lie
But it sure sounded good, sounded good last night

All the top shelf shops, all the ya'll watch this
All the bad ideas that I never should've did

Sounded good last night, we had a damn good time
Jack Daniel's got that jackhammer pounding on my mind
Is that my ex's 4Runner backing out the drive?
What I told her must've sounded good last night
That video's running up a hundred thousand views
Got a message from my mama, said, I can't believe that's you
I'm contemplating reevaluating my life
But it sure sounded good, sounded good last night
Na-na-na...
Yeah, it sure sounded good, sounded good last night

I mean it sounded a lot better than I feel right now
Yikes
