If you play your cards right
We'll be shining in the spotlight
We can dress up like it's prom night
Staying at the Palms like
Got some bottles and they're on ice
They so cold they're getting frostbite

Oh
And I feel like we've been on a roll
Always double down I never fold
You're the rainbow and the pot of gold

Yeah she's hot as jalapeño
Think she shot a man in Reno
Got a pocket full of C-notes
'Bout to drop at the casino
Hey got more chips than Frito Lay
Doing it Carlito's Way
Rocking a tuxedo sipping Tito's
We don't need no chase

Oh
And I feel like we've been on a roll
And I know that you just want to
Pop all these bottles
Wanna make a toast, avocado
'Cause it feels like we won the lotto
Baby shake it like it's vibrato
