

Dancing Around It

Coleman Hell

It takes two
Two heartbeats at once
And with us two, mmh
It only takes one touch
Just can't get enough
Mmh, yeah

All the lights and the music
It feels like a movie
The way that we're moving, nah
'Cause we're only human
Don't know what we're doing
The way that we're moving

Is it love, or are we just dancing around it?
Alone in a crowd of a thousand
I can't keep my feet on this round
I don't wanna come down
Is it love, or are we just dancing around it?
It feels like we already found it
And I don't wanna say it out loud
But baby it sounds like we're dancing around it

We're so close
To what we want the most
Ooh yeah
And who knows
Where this night could go
Where it could go

All the lights and the music
It feels like a movie
The way that we're moving, nah
'Cause we're only human
Don't know what we're doing
The way that we're moving

Is it love, or are we just dancing around it?
Alone in a crowd of a thousand
I can't keep my feet on this round
I don't wanna come down
Is it love, or are we just dancing around it?
It feels like we already found it
And I don't wanna say it out loud
But baby it sounds like we're dancing around it

Pulling me, pulling me, pulling me up
Dance all night, we can let it shine bright
Pulling me, pulling me, pulling me up
Oh, can't decide
Pulling me, pulling me, pulling me up
Dance all night, we can let it shine bright
Pulling me, pulling me, pulling me up
Oh

Is it love, or are we just dancing around it?
Alone in a crowd of a thousand

I can't keep my feet on this round
I don't wanna come down
Is it love, or are we just dancing around it?
It feels like we already found it
And I don't wanna say it out loud
Baby it sounds like we're dancing around it
