

## hold on me

Coleman Hell

You still got a hold on me  
Your love won't let go of me  
I just need to know you feel the same  
Can we take it back? (Can we take it back?)  
Can we take it back? (Can we take it back?)  
You still got a hold on me  
Your love won't let go of me  
I just need to know if you feel the same  
Can we take it back? (Can we take it back?)  
Can we take it back? (Can we take it back?)  
You still got a hold

You still got a hold on me  
You got hot, then went cold on me  
Now you go out with your girlfriends  
And say that you're not my girlfriend  
Back then, we used to be best friends  
Used to perfect, was it all worth it?  
Now, can we work it out?

Hold up right now  
Think we both need a timeout  
Don't say goodbye  
Let's go back to the good times  
Your love's still mine  
I heard that through the grapevine  
Don't say goodnight

You still got a hold on me  
Your love won't let go of me  
I just need to know if you feel the same  
Can we take it back? (Can we take it back?)  
Can we take it back? (Can we take it back?)  
You still got a hold

Somehow you still got a hold on me  
Play your cards close to your chest and you fold on me  
If I can't have you, don't want nobody  
Nobody knows me like you know me  
Uno momento, just give it some time  
Let's take a second so we can rewind  
Feelings aside, are you still feeling my vibe?  
'Cause I'm still feeling your vibe

Hold up right now  
Think we both need a timeout  
Don't say goodbye  
Let's go back to the good times  
Your love's still mine  
I heard that through the grapevine  
Don't say goodnight

(You still got a hold)  
Still got a hold, you won't let go  
Just need to know  
(Can we take it back? Can we take it, can we take it)

You still got a hold on me  
Your love only grows on me  
I just need to know you feel the same  
Can we take it back? (Can we take it back?)  
Can we take it back? (Can we take it back?)  
You still got a hold (Still got a hold)  
Your love won't let go (You won't let go)  
I just need to know if you feel the same  
Can we take it back? (Can we take it back?)  
Can we take it back? (Can we take it back?)
