

## Left On Read

Coleman Hell

Last night you told me that I was your man  
Now I feel lonely and don't understand  
I tried to text you but got left on read  
Where did you go, was it something I said?

You left me on read  
Girl I want your body  
You left me on read  
Tried to say I'm sorry  
You left me on read  
Can't you hear me calling  
You left me on read

Somebody help me, please call 911  
My heart's been broken and you're on the run  
I tried to text you but got left on read  
Was our connection just all in my head

You left me on read  
Girl I want your body  
You left me on read  
Tried to say I'm sorry  
You left me on read  
Can't you hear me calling  
You left me on read

Oh you don't pick up your phone now  
I bet you don't even scroll down  
I'm doing good on my own now  
My only bae is my hometown  
I know it's unlikely  
But try to name another love like me  
It's okay, I can wait  
Everybody knows you got time to waste

Hey, here's to hoping you find someone  
You're on my guest list, minus 1  
Now when you call I just hang up  
Because you left me on read

You left me on read  
Girl I want your body  
You left me on read  
Tried to say I'm sorry  
You left me on read  
Can't you hear me calling  
You left me on read  
You left me on read
