

Every time I think I'm over it  
You say you want me, girl, I thought we just went over this  
It's such a tragedy how you keep dragging me  
You say I got too many personalities

Yeah, whoa, we only talk when we're intoxicated  
Whoa, when did it all become so complicated?  
Were we in love or was it all just wasted time with you?

Oh, yeah, don't you just walk away  
Don't, baby think it over  
Oh, yeah, you should just come over  
Losing my composure now, whoa  
But I know you got a lot to say  
Don't say it when you're sober  
Oh, yeah, baby don't you wish that  
We'd get over this somehow? Over

Every time I fall in love again  
It's hard to tell, you got a spell, I think I'm under it  
I think I'm over it, I'm overthinking it  
I'm multitasking and we smoking while I'm digging it

Yeah, whoa, we only talk when we're intoxicated  
Whoa, when did it all become so complicated?  
Were we in love or was it all just wasted time with you?

I don't know what, know what I should do, yeah yeah  
'Cause I can't get, can't get over you, nah nah  
I don't know what, know what I should do because  
I just can't get (can't get over you)

Oh, yeah, don't you just walk away  
Don't, baby think it over  
Oh, yeah, you should just come over  
Losing my composure now, whoa (can't get over you)  
I know you got a lot to say  
Don't say it when you're sober  
Oh, yeah, baby don't you wish that  
We'd get over this somehow? Over
