Coleman Hell

Show 'em what it looks like
No, no, no, no
Caught me on a good night
I don't need no filter, feel like I just found the good light
We've been going off, like we don't even need a green light
Stepping on the scene like
Shit you never seen like
We don't even need likes
Ay, ay, oh

Somebody give me some flattery
I'm looking pretty like, Timothee Chalamet
Shit is just simple Anatomy
I got a pic you should stick in a gallery

Show 'em what it looks like

No, no, no, no
Caught me on a good night
I don't need no filter, feel like I just found the good light
We've been going off, like we don't even need a green light
Stepping on the scene like
Shit you never seen like
We don't even need likes
Ay, ay, oh

Get on the 'gram and that shit is amazing
Give 'em a Grammy, they're singing my praises
Look at these faces
You're beautiful too baby, don't let 'em change ya

Oh, just show 'em what it looks like

No, no, no, no
Caught me on a good night
I don't need no filter, feel like I just found the good light
We've been going off, like we don't even need a green light
Stepping on the scene like
Shit you never seen like
We don't even need likes
Ay, ay, oh
