

# Thumbalina

Coleman Hell

I want to take you with me everywhere I go  
Yeah  
In the pocket of my jeans  
Oh I'll keep you warm  
Yeah

You suck my heart through a crazy straw  
Then your freckles turned into lady bugs  
In the sky they flew and they spelled out love  
By the time I knew that you were the one

When you scream but you're voice ain't loud  
And you wanna break down cause you feel so small  
No you got one believer  
Cause you're my Thumbalina  
When you scream but you're voice ain't loud  
And you wanna break down cause you feel so small  
No you got one believer  
Cause you're my Thumbalina

You can fit inside my palm  
You can fit inside my palm  
You can hide inside my palm  
They got a shrinking machine  
They make you feel small  
Yeah  
But when you're with me  
You can be six feet tall

You suck my heart through a crazy straw  
Then your freckles turned into lady bugs  
In the sky they flew and they spelled out love  
By the time I knew that you were the one

When you scream but you're voice ain't loud  
And you wanna break down cause you feel so small  
No you got one believer  
Cause you're my Thumbalina  
When you scream but you're voice ain't loud  
And you wanna break down cause you feel so small  
No you got one believer  
Cause you're my Thumbalina
