

video

Coleman Hell

I can still picture you
Like an old video
Never stop missing you
Memories on a loop

Red lights flashing
Red lights flashing
Can we love you?

I just closed my eyes and I watched you come back
You were kissing my neck with the nails in my back
I can put it in slow motion, I can speed it up fast
Then I hit the rewind, yeah, you like it like that

Video, oh
Video, oh

Thoughts of you on repeat
Even when I'm asleep
Watching you in my dreams
Like an old TV screen

Red lights flashing
Red lights flashing
Can we love you?

Remember all the times that we'd never take back
In the sheets of my bed with the perfect soundtrack
Hit replay over and over every moment we had
Even watched the reruns 'cause I want you so bad

I just closed my eyes and I watched you come back
You were kissing my neck with the nails in my back
I can put it in slow motion, I can speed it up fast
Then I hit the rewind, yeah, you like it like that

Video, oh
Video, oh
