

It's Real

Colette Carr

It's real, it's real.

Happy days and it's not over
What's the point of being sober
What's the point, it's bad for me?
Living poised, catastrophe
You're stuck in shift, I'm driving 'matic
Hit this shit just like an addict,
Steel toed boots, I'm kicking ladders
Badder and badder it's the same old pattern
What's the matter? I disappoint?
You missed the point, just hit the joint
In this joint just bump the music
Bumpin' loose just watch me lose it
Magnum, I'm so magnetic
Act dumb don't be pathetic
Yup you said it
I said it better
Hear have another, here have another...

Sometimes we all sink deep
Sink in the pillow
We all fall asleep (fall asleep)
That's were I see my dreams
And I take them
And I make them realize

Sometimes we all sink deep
Sink in the pillow
We all fall asleep (fall asleep)
That's were I see my dreams
And I take them
And I make them realize

Pedal to the metal I said blast off
Full speed ahead, to the last stop
By the power invested in me
I do believe in destiny
I don't believe in resting these
Eyes that keep on wrestling me
Like paper weights, holding plastic
Wow my life is so fantastic
No sleep cause I'm awake
Living the dream, make no mistake
Please don't get it twisted
Empty handed double fisted
Oops, I think you missed it
Stick with me, yes I insist it
Gay fish cause you like fish sticks
Stick with me we'll go ballistic

Sometimes we all sink deep
Sink in the pillow
We all fall asleep (fall asleep)
That's were I see my dreams
And I take them
And I make them realize

Sometimes we all sink deep
Sink in the pillow
We all fall asleep (fall asleep)
That's were I see my dreams
And I take them
And I make them realize

Happy days and it's not over
Happy days and it's not over
Happy days and it's not over
(It's real)
Happy days and it's not over
Happy days and it's not over
Happy days and it's not over
(It's real)

Sometimes we all sink deep
Sink in the pillow
We all fall asleep
That's were I see my dreams
And I take them
And I make them realize
