

Weird Science

Colette Carr

Your turning me on oh, oh, on, oh oh on turning me on
Found my perfect love feels like weird, weird science
Tried to shake it off, girl I swear I'm tryin
Feels like weird, weird science

His brain is so amazing
Insane I'm going crazy
Weird science, weird science, weird science
Like Frankenstein
He has my heart and my mind
Weird science, weird science, weird science
When your vibe goes pa, pa, pa, pa, pa I get so high note ha, h
a, ha, ha, haaaa

Your turning me on oh, oh, on, oh oh on
Found my perfect love feels like weird, weird science
Tried to shake it off, girl I swear I'm tryin oh, oh, oh
Feels like weird, weird science

Satellites, glow sticks, UFOs
Can't get in this bitch without your space clothes
You know they call me the pooper scooper
You the shit
Who you with?
Frozen wrists son you know my flow is sick
More hits than you know exists bitch
But in love with the one from my computer
Lets met up let's do this
Are you really really really real and true to
Can't be true to the virtual world
I'm a virtuous girl
Your love potions gunna hurt this girl
But if you buy it then imma try it
Weird science

Tried to shake it off, girl I swear I'm tryin oh, oh, oh
