

Now I Know I'll Never Get Over You

Colin Blunstone

Don't leave me now
Not after all this time
We can work it out
Now I know I'll never get over you

Seasons come and go
But this feeling never changes
I still love you so
Now I know I'll never get over you

It's all right if you want to spend some time alone
It's all right if the words won't come
I can wait till you're tired of living on your own
Now I know I'll never get over you

Every word you say
Every little thing you do
Takes my breath away
Now I know I'll never get over you

It's all right if you want to spend some time alone
It's all right if the words won't come
I can wait till you're tired of living on your own
Now I know I'll never get over you

Don't leave me now
Not after all this time
We can work it out
Now I know I'll never get over you
