Into the Cornfields

Colin Hay

Driving through the south No need to stop for gas That's all taken care of By the gas man

Some of it is very beautiful And some of it has scars And some of it is ugly As a bigot in a bar

Driving through the south by car Me and Bonn and Charlie B The night makes us stop By the side of the road for tea

I stare up in the distance A branding iron is stuck up in the night sky It's in the shape of America And it's in flames But I'm not sure why

Into the cornfields
Into the cornfields

And we know a secret

It happened some time ago

A woman killed a man here

She was in a traveling show

Burlesque you could say
With breasts and body beautiful
But serpents appeared from her shoulder blades
That's why the people come

Into the cornfields
Into the cornfields
Into the cornfields
We don't we don't want to go

We're in Virginia now
It's so beautiful and green
Hill and valleys and opens skies
Yes it's the best we've ever seen

We're still sitting by the roadside Waitin' for a sign Yeah me and Bonn and Charlie B Together for a time

Into the cornfields
Into the cornfields
Into the cornfields
We don't we don't want to go

Into the cornfields
Into the cornfields
Into the cornfields

We don't we don't want to go back there
