

# Change It

Colin James

You can't change it  
You can't re-arrange it  
Time is all that we've got  
So baby let's take it

Loving is loving  
The moment is right  
It's worth all those years in the past  
Let's go one more night

Get away from the blind side of life  
Honey I want you to be by my side  
Me and my backdoor moves ain't no more  
No more  
Get away from the blind side of life  
Honey I want you to be by my side  
Me and my backdoor moves ain't no more  
No more

Get away from the blind side of life  
Honey I want you to be by my side  
Me and my backdoor moves ain't no more  
No more  
Get away from the blind side of life  
Honey I want you to be by my side  
Me and my backdoor moves ain't no more  
Ain't no more

Good night my darling  
Another day has passed  
Forget all those painful memories  
Our love's gonna last

Come to me baby  
Come to me one more time  
Time we get moving  
Time to move on  
Let's slide out the door  
Let's slide out the door  
Gotta glide our way home  
Got to glide our way home  
Let's go, let's go  
Got to come back for more
