

Healing Time

Colin James

Watch out, it's steep
When you fall too deep
It hurts, you cry

That's life, love dies
The night gets long
Too late she's gone
Somebody's not home
Wind blows so cold

You're trying to fit inside the shape you're in
You get nowhere to go
Why you hurrying
Too bad you tried
It's healing time

It's fast, it burns
When love's heart turns
Your mind's mixed up
Too many pieces to pick up

All the things that you were living for
Are on the other side, no open door
No luck, no pride
Just healing time
Some peace you'll find
In healing time

Watch out, it's steep
When you fall too deep
It hurts, you cry
It's healing time
It's healing time
