

# Honey Bee

Colin James

I got a nine pound hammer and a sugar buzz  
She says she don't but I know she does  
Dragging my business all around her hive  
It's what I gotta do to keep her love alive

I'm comin' home lookin' for my honey bee  
I'm comin' home lookin' for my honey bee

I got home early from the factory  
Crashing through the walls to see what I could see  
Flies in the kitchen and the dogs on the floor  
Barkin' and a fussin' through her back door

I'm comin' home looking for my honey bee  
I'm comin' home looking for my honey bee  
Hey sugar sugar taste good to me  
I'm comin' home lookin' for my honey bee

I'm spinnin' my wheels on your sweetest ways  
A hundred years and a hundred days  
Is like a minute man's rushing to the edge of space  
I look out the window, I see your face

I'm comin' home looking for my honey bee  
I'm comin' home looking for my honey bee  
Hey sugar sugar taste good to me  
I'm comin' home lookin' for my honey bee

Candy candy comin' my way  
There's no woman that can make me stray  
A Sweet Little Lisa or Maybeline  
Ever gonna crash into my love machine

I'm comin' home looking for my honey bee  
I'm comin' home looking for my honey bee  
Hey sugar sugar taste good to me  
I'm comin' home lookin' for my honey bee

I'm comin' home lookin' for my honey bee  
I'm comin' home lookin' for my honey bee
