

I Hope You're Happy

Colin James

Just like the one I doubt in 3D movie
I didn't get the trip
Keepin' me up in the dark ol' night
Seems to be your special gift

Only you can love me blind
Now I can't read between your lines

This bitter sweet there is no relief and I
I hope you're happy
I know you won't ever worry about me and I
I hope you're happy happy now

Well I hope you're happy
'Till you're jacking all to cut me loose
To hear me made up my mind
But you are sleeping alone and sweep forgiveness
I'm checking all on pride

Only you can take me down
Swallow the earth and you roll me round

This bitter sweet there is no relief and I
I hope you're happy
I know you won't ever worry about me and I
I hope you're happy happy now

Your love's a flaming jacket
Yeah I'm just rolling and rolling around
I'm making an awful racket
You're making like you don't hear no sound

Yeah, hope you're happy now
You're happy
Hope you're happy

Bitter sweet there is no relief and I
I hope you're happy
I know you won't ever worry about me and I
I hope you're happy happy
This bitter sweet it's a pleasure for me and I
I hope you're happy
Doing what time? aren't there no release in all?
I hope you're happy happy now
Yeah, Hope you're happy now
And I hope you're happy now...
