

## I Will Remain

Colin James

In the darkest night  
Just be for the break of day  
When you need someone  
To help you find the way

The night is gone  
I help you carry on  
I will remain

When all seems lost  
And you don't know where to turn  
And are the white line  
On the highway through

Just call my name  
And let me ease the pain  
I will remain

And when the night  
The night comes down again  
Don't you worry  
Don't you worry, bout a thing

You're not alone  
Call me on the phone  
I will remain

You know you're not alone  
So call me on the phone  
I will remain
