

Love Is Calling

Colin James

I've got ways to make you crazy, and I've got too much
Too much time to waste
Sometimes at night I just say your name
And I hope you'll appear
Can you hear what I'm sayin'

You know love is calling
Calling your name
Love is calling
Calling your name

There's a light downtown
Shining over your head
I hear a big party next door
Shaking me out of bed
Sometimes at night I ring that bell for you
Can you hear it? Can you hear it?

Love is calling
Calling your name
Love is calling
Calling your name

Over the rooftops and the satellites
I hope you hear me out there tonight
Love is the sweetest mystery
And it's coming to you straight from me

Sometimes at night I ring that bell for you
Can you hear it? Can you hear it?

Love is calling
Calling your name
Love is calling
Calling your name

Love is calling
Calling your name
Love is calling
Calling your name
