## More Than You Needed

## **Colin James**

Before I lay down
Before I close my eyes
Before I dream
Before I dream this day away
The diamond shines
Leads me through the night
Delivers me to say softly

Only the brave get lonely like this Lovers and slaves Who live by the kiss Let me give you more More than you ever thought you needed

Let me take off your ring Let em set you free And make it simple now for you and for me

Only the brave get lonely like this Lovers and slaves
Who live by the kiss
Let me give you more
More than you ever thought you needed
