

# Open Your Mind

Colin James

When we were born  
When the world was young  
Chase the sun  
Chase the sun  
We chase it down  
With outstretched hands  
Head full of dreams  
Heart full of love

It's never easy  
It's so hard to find  
Open your mind  
Open your mind

What you long for  
Long for and crave  
Sin and be saved  
Cradle the grave  
What you long for  
Long for and crave  
Sin and be saved  
Cradle the grave

Take your trouble  
Leave it all behind  
Open your mind  
Open your mind

When we were born  
When the world was young  
We burned down our dream  
We chased the sun

When we were born  
When the world was young  
Heads full of dreams  
Hearts full of love

Take all your sorrow  
And leave it all behind  
Open your mind  
Open your mind  
Open your mind  
Open your mind

Leave it all behind  
Leave it all behind

One love you can't find  
Leave it all behind  
Leave it all behind  
Leave it all behind

One love you can't find  
One love you can't find
