Show Me

Colin James

```
I was standing on the corner
Waitin' for the bus to come
Thinking about you baby
Wondering when I'd get me some

Come on lover, come on lover
Let me come through
Come on show me baby show me
Show me what you can do

Forget about the money
Don't think about the strain
Come inside now out of the cold
And let me take away the pain

Come on lover, come on lover
Now that I'm feeling blue
Come on show me baby show me
Show me what you can do

I see you coming, and you're coming strong
You'll be home before too long
Telling tales of lies and such
Sometimes baby you're a little too much

Come on lover, come on lover
Now that I'm feeling blue
Come on show me baby show me
Show me what you can do

Show me, show me, show me baby, show me baby...
Show me you can
```
