

# Tears Came Rolling Down

Colin James

My baby's moving out this morning bout  
Half past nine, she packed  
Packed her leaving truck she did  
Bother mine

And her tears came rolling  
And her tears came rolling down  
And her tears came rolling down  
She kissed me goodnight  
And I know she meant goodbye

I looked in her eyes as I  
As I held her hand, I said  
Baby are you gonna leave me for  
For another man

And her tears came rolling  
And her tears came rolling down  
And her tears came rolling down  
She kissed me goodnight  
And I know she meant goodbye

Hey, walk a while

Well I walked back in the room and I  
Sat down for a little while and I started  
Thinking about my baby  
And I cried just like a little child

And the tears came rolling  
And my tears came rolling down  
Ya my tears came rolling down  
She kissed me goodnight  
And I know she meant goodbye

Tears came rolling  
Tears came rolling
