

The Night Is Young

Colin James

The night is young and you're so fine
Tell me baby that you'll be mine
Oh oh oh, oh oh oh, oh yea, aha
Well I know I love you baby, if I don't I hope to die

If the innuendo laps that low
Kiss me baby before it's time to go
Oh oh oh, oh oh oh, oh yea, aha
Well you know I love you baby, if I don't I hope to die

First star, I see tonight, I wish I may, I wish I might
Hold me baby, squeeze me tight
And never let me go until the broad daylight

The night is young and you're so fine
Kiss me baby, just one more time
Oh oh oh, oh oh oh, oh yea, aha
Well you know I love you baby, if I don't I hope to die

First star, I see tonight, a wish I may, and I wish I might
Hold me baby, squeeze me tight
And never let me go until the broad daylight

The night is young and you're so fine
Kiss me baby, just one more time
Oh oh oh, oh oh oh, oh yea, aha
Well you know I love you baby, I loved you...
Well you know I love you baby, if I don't I hope to die
